Notes:

Date Tested: 11/22/2021

LOQ = Limit of Quantitation; The reported result is based on a sample weight with the applicable moisture content for that sample; Unless otherwise stated all quality control samples performed within specifications established by the Laboratory. M1: The recovery from the matrix spike in subsection (K)(4) was High, but the recovery from the laboratory control sample in subsection (K)(2) was within acceptance criteria. V1: The recovery from continuing calibration verification standards exceeded the acceptance limits in subsection (J)(1)(b), but the sample's target analytes were not detected above the maximum allowable concentrations in Table 3.1 for the analytes in the sample.
